HR Pro Software

HR Pro is the software used for advancing employee productivity and gauging employee performance. It is the ultimate software for companies to identify training needs, by defining Employee goals that are in alignment with Organization Goals and expectations. The personal development plan and employee progress analysis give HR personnel an edge in dealing with employee issues. Manage Competencies and evaluate the Training needs of employees.

HR Pro software is compliant with the following standards:

- > IATF 16949
- > AS9145
- > ISO 13485
- > ISO 9001
- > ASPICE
